

Imbolc Scavenger Hunt

From the Pagan Federation Children and Families Team

This scavenger hunt is easy for you to do in the house if the wintry weather persists, but you could take it outside and if you're very prepared, even hide a few key objects if you like. The important thing is that there are no wrong answers. Let your hunters interpret the clues/suggestions how they want! The hunt is based loosely on the five basic senses like most of our [Aether quests](#).

Once you've got a full rack of items, see if you can arrange them into an Imbolc-themed shape or picture, such as a flower, a sheep, or the sun.

- Find something green, the colour of new buds
- Find something soft
- Find something cold - it's still winter, after all!
- Find something with an animal on or from an animal - baby animals like lambs start to be born at this time of year
- Find something edible - food can be scarce at the end of winter
- Find something yellow, the colour of the returning sun
- Find something hard
- Find something that makes a musical note - it doesn't have to be an instrument! For example, a wooden block makes a drum sound.
- Find something that makes you think of spring
- Find something with a texture you love

Please share photos of your hunts with us! Enjoy.
